

除湿干燥系列 Dehumidifier and dryer series

除湿干燥系统 Drying & Dehumidifying System

随着科学技术的不断发展和进步，PE的用途越来越广泛，从合成纤维领域到食品、医药包装、磁带薄膜、工业用丝、耐高温餐具等领域，均起着至关重要的作用。

With the development of science and technology, the application of PE is wider and wider. It plays a vital role in many areas, textile, food, chemical packaging, tape film, industry thread, heat-resistant dishware etc.

由于PE含水率较高，在高温挤出熔融时会产生气泡、龟裂、色泽发黄等不良缺陷。在PE的系统应用中，除湿干燥为最主要的制程，除湿干燥的效果对产品质量起着决定性的作用。我们能为广大PE注塑设备和产品生产厂家提供可靠的除湿干燥技术保障。

Air bubble and chapping will come out due to its high moisture content. In the application of PE, the process of drying and dehumidifying is very important. It plays a decisive role in the quality of products. We provide series of secured and reliable drying and dehumidifying technologies for PE molding and other PE product manufactures.
